TECHNICAL DATA SHEET

Inhibitor 6510

PRODUCT DESCRIPTION

+ water-soluble
+ corresponds to TRGS 611
+ amine-free

CHARACTERISTICS

Colour / Appearance	Colorless
Density/20°C / DIN EN ISO 12185	1.51 g/cm³
pH-value (10 % in H2O) / DIN 51 369	14

APPLICATION

Inhibitor 6510 is used to increase the pH-value of an emulsion. The main area of application is in amine-free systems.

WORKING CONCENTRATION

The addition of 0.05 % effects a pH-value increase of approx. 0.5.

Benefit from our service, we will gladly advise you and develop individual application recommendations for your process. Please also note the material safety data sheet.

The information contained in this document (the “Product Specification”) is based on our present knowledge. They do not exempt the processor or user from carrying out its own tests. Properties of the product going beyond the above-mentioned specifications and/or suitability for a specific purpose cannot be derived from the product specification and are not owed. Any existing legal provisions and regulations concerning the handling and use of the products must be observed by the processor or user of our products. We expressly point out that the owed quality of our product is measured exclusively on the basis of the properties warranted in this document; the fulfillment of additional legal objective quality requirements is not owed. By ordering our product without objection, being aware of this product specification, you agree to it.

EXPERTLY DONE.
